Remote EMEA or Switzerland

Professional Summary

Senior Staff Engineer and engineering cofounder with 17+ years of experience building software products from zero to scale across full-stack application development, platform architecture, and cloud infrastructure. Co-founded Alaya and built the platform from a blank page to acquisition by Benevity, combining hands-on delivery with technical strategy, hiring, and long-term architecture.

Strong background in TypeScript, Node.js, React, Python, AWS, distributed systems, and data-heavy product workflows. Recent work has focused on AI-augmented engineering, LLM integration, multi-agent workflows, and practical product systems that balance speed, reliability, and maintainability.

Professional Experience

Senior Staff Engineer

2021 - 2026

Benevity — Geneva, Switzerland (Remote)

Global leader in corporate purpose software, 800+ enterprise clients

Senior IC driving platform evolution post-acquisition inside a global distributed engineering organization. Worked across product, platform, architecture, and AI-assisted engineering practices.

- Drove cross-team architecture and platform evolution after the Alaya acquisition, bridging an acquired European product into Benevity's broader platform
- Pioneered AI-assisted engineering workflows, including LLM-based code review, multi-agent development patterns, and reusable prompt tooling
- Designed data integration pipelines across 20+ external data sources with structured compliance and reporting workflows
- Improved developer experience through CI/CD modernization, deployment workflow improvements, and stronger automated testing foundations
- Operated as a senior technical lead across Europe and North America, influencing system design and mentoring engineers without formal authority

Technologies: TypeScript, Node.js, React, Vue.js, Python, MongoDB, PostgreSQL, AWS, Docker, Kubernetes, CI/CD, AI/ML tooling

Cofounder & Head of Technologies

2016 - 2021

Alaya (now Alaya by Benevity) — Gland, Switzerland

Employee purpose platform for volunteering, giving, and CSR engagement

Co-founded the company and built the technology platform from zero, then scaled it through early growth to acquisition by Benevity.

- Owned end-to-end architecture and technical strategy from day one, building the core product across frontend, backend, data models, APIs, and AWS infrastructure
- Built and shipped the first production platform personally, then scaled it into a multi-tenant SaaS product used by 50+ enterprise clients across Switzerland and France
- Made foundational system design decisions around service boundaries, storage strategy, API design, and scalability that held through growth and acquisition due diligence
- Built the first engineering team, set the hiring bar, introduced code review and CI/CD practices, and mentored engineers as the company scaled
- Led the technical side of the acquisition process with Benevity, validating the platform architecture and engineering execution

Technologies: TypeScript, React, Redux, Node.js, MongoDB, PostgreSQL, Redis, Docker, AWS, REST APIs

Full Stack Engineer

2016 - 2018

Etat de Geneve — Geneva, Switzerland

Canton of Geneva public administration

Built public sector applications for Geneva's education information system while coordinating with multiple government teams.

- Developed full-stack applications for the SIEF education platform used by the Canton of Geneva
- Worked across architecture, infrastructure, and business teams in a regulated multi-stakeholder environment
- Built early experience with compliance, data governance, and large-organization delivery

Technologies: Java, Spring Boot, Hibernate, Angular, AngularJS, REST, Oracle, Jenkins

Software Engineer

2015 - 2016

SQLI Group — Geneva, Switzerland

Consulting group embedded at eJust startup

- Built an online commercial dispute resolution platform for the eJust startup
- Delivered full-stack features across AngularJS frontend and Java/Spring backend services

Technologies: JavaScript, AngularJS, Java, Spring MVC, Spring Data, Hibernate, SQL Server, REST

Hybrid & Desktop App Developer

2014 - 2015

Castr (via MC Dev consulting) — Paris, France

- Developed the hybrid mobile app and desktop product for a geolocated social news platform
- Contributed to cross-platform product development as an independent contractor

Technologies: JavaScript, ES6, AngularJS, Node.js, Express, Ionic, Cordova

Software Architect (GWT)

2011 - 2014

Sagemcom — Paris, France

Telecom equipment manufacturer serving major operators

Designed an embedded UI platform for functional testing and validation across multiple set-top box environments.

- Designed and built an embedded JavaScript UI platform using GWT for functional testing across diverse hardware environments
- Enabled simulation of TV features such as channel zapping, PiP, recording, timeshift, and DLNA
- Helped reduce validation cycles by bridging embedded systems constraints with UI-level tooling

Technologies: GWT, JavaScript, Java, Embedded Systems

Software Engineer

2007 - 2011

Artaud Courtheoux et Associes — Paris, France

- Built enterprise software applications across Java and .NET environments

Technologies: Java, .NET, Enterprise Applications

Skills

PLATFORM & ARCHITECTURE

Software Architecture · System Design · Platform Engineering · Distributed Systems · Scalability & Reliability · Cloud Infrastructure (AWS) · API Design (REST) · Microservices · Data Modeling · Multi-tenant SaaS

TECHNICAL

TypeScript / Node.js · React / Vue.js · Python · Java / Spring · MongoDB / PostgreSQL · Redis · Docker / Kubernetes · CI/CD & DevOps · LLM Integration · Multi-agent Workflows · Semantic Search & Embeddings

LEADERSHIP & STRATEGY

Technical Leadership · Technical Cofounder (0 to Acquisition) · Hands-on Full-Stack Delivery · Engineering Team Building & Mentoring · Cross-Functional Collaboration · Startup to Enterprise Scaling · High-ownership Product Mindset

Education

Master's Degree (MSc) — Computer Engineering

2004 - 2007

ESGI - Ecole Superieure de Genie Informatique — Paris, France

Languages

French — Native English — Professional
